

The 8th IVR Animal Models Workshop

SESSION	ACTIVITY
	09:00-09:15: Welcome to this year's Animal Models Workshop
Translatability: From experimental design to published data	09:15-10:00: Translatable research: how to get from pre-clinical to clinical trials (Lone Frydelund Larsen) 10:00-10:15: Coffee break 10:15-11:00: How to avoid misconducts in animal studies (Otto Kallio-koski)
	11:00-12:20: Lunch
Animal welfare: care about your experimental animals	12:20-13:00: Advancing 3R by use of an Animal-centric Care and Management strategy (Dorte Bratbo)
	13:00-13:10: Coffee break
Developing animal models: Perspectives and limitations	13:10-13:45: Cancer models: what to be mindful of when choosing an animal model for research in cancer (Mikkel Green Terp) 13:45-14:20: Choosing the Best Preclinical Model for MASH: Essential Insights and Challenges (Henrik Björk Hansen)
	14:20-14:50: Coffee Break
Hot Topic Session: What's up, Gut?	14:50-15:30: Gut microbiota and how it influences the translatability of an animal model (Camilla Hartmann) 15:30-16:10: Why-rome? The gut virome as a determinant of early-life health and disease (Anders Brunse)
Thank you for coming.	16:10-17:00: Option to stay for coffee and networking.

May 9th 2025

Register by April 25th to attend this free event

A1-0.1.01, Aka. "Festauditoriet", Frederiksberg Campus,
Bülowsvej 17, 1870 Frederiksberg C

PRECLINICAL IN VIVO RESEARCH
GRADUATE PROGRAMME @ UCPH HEALTH AND MEDICAL SCIENCES
